Hailo-8 M.2 AI Acceleration Modules

Delivering data center class performance to edge devices

Key Features & Benefits

- Powered by 26 Tera-Operations Per Second (TOPS) Hailo-8 AI Processor
- Highest cost-efficiency (TOPS/\$) compared with existing solutions
- Supporting extended temperature range of -40°C to 85°C
- Best-in-class power efficiency
- Scalable, enabling simultaneous processing of multi-streams & multi-models
- Fast time to market using a standard form factor module, with key M, key B+M & key A+E
- Enabling real-time, low latency, and high-efficiency AI inferencing on edge devices
- Robust software suite supports state-of-the-art deep learning models & applications out-of-the-box
- Optional extensions for Key M & Key B+M

Technical Specifications

- Form factor options
  - M.2 key M, key B+M, key A+E
- Interface
  - PCIe Gen-3.0, 2-lanes (4-lanes in key M)
- Supported OS
  - Linux, Windows
- Supported AI frameworks
  - TensorFlow, TensorFlow Lite, Keras, PyTorch & ONNX
- Dimensions
  - Key M, B+M: 22×42 mm with breakable extensions to 22×60 mm & 22×80 mm
  - Key A+E, 22×30 mm
- Supported host architectures
  - X86 or ARM based

Hailo-8 M.2 AI Acceleration Modules

Compatible with M.2 form factor, the Hailo-8 based modules can be plugged into an existing edge device with an M.2 socket to execute deep neural network inferencing in real-time utilizing low power for a broad range of market segments.

Featuring the Hailo-8 AI Processor

The Hailo-8 AI processor, delivering up to 26 tera-operations per second (TOPS), significantly outperforms all other edge AI processors. Its area and power efficiency are far superior to other leading solutions by an order of magnitude.

Hailo-8 unique, powerful and scalable structure-driven dataflow architecture takes advantage of the core properties of neural networks. It enables edge devices to run deep learning applications at full scale more efficiently, effectively, and substantially than traditional solutions, while significantly lowering costs.
**Comprehensive Software Suite**

AI software suite which seamlessly integrates with existing deep learning development frameworks to allow smooth and easy integration in existing development ecosystems. The Hailo AI software suite includes:

- **Model Zoo**
  A variety of common & state-of-the-art pre-trained and retrainable models in TensorFlow & ONNX

- **Hailo Dataflow Compiler**
  A software toolset for optimization & translation of trained models to Hailo-8 format

---

**Hailo Ecosystem**

Hailo collaborates with partners globally to offer products for edge solutions — from small and fanless devices, to ruggedized industrial appliances, high capacity video analytics platforms, embedded computing platforms and more.
